Testing & Test Repairs

We Meet All of Your Testing Needs

TRL Systems technicians are certified to provide all your facility testing and reporting needs. You can count on us to provide test reports that satisfy the stringent requirements of:

- NFPA 72
- Los Angeles Regulation 4
- Centers for Medicare and Medicaid Services (CMS)
- OSHPD
- The Joint Commission
- Insurance Companies
- And Other Local Authorities Having Jurisdiction (AHJ)

What Sets Us Apart

We are industry famous for thorough and accurate reporting that impresses Authorities Having Jurisdiction. In fact, inspectors often remark that TRL's documentation is the best they've seen in the country.

Our customers are impressed by our testing efficiency and the speed with which we test, identify failures, and repair deficiencies. And for an even quicker turn-around, one of our industry-trained repair technicians can accompany your testing technician so that any detected faults are repaired as soon as they are discovered.

Full Range of Testing Services

As a C10 and C16 licensed contractor we provide testing for many systems including:

- Fire Alarm Systems
- Fire Sprinkler Systems
- Fire Pumps
- Elevator Recall
- Smoke Management
- Central Stations
- Emergency Lighting
- Fire Suppression Systems
- Emergency Power/Lighting
- Automatic Closing Fire Assemblies
- Fire Escape
- Nursecall
- Pre-Action Systems
- Standpipe Systems

Maximum Service with Minimal Disruption

Regular weekend service hours at no extra cost

At TRL Systems, we have exceeded expectations since 1981 by listening to what our customers have to say. Our customers have unique operating hours and sometimes, 9-to-5 weekday service just isn't ideal. That's why we offer extended service business hours, from 6 a.m. to 6 p.m., **seven days a week**. That means you can call our Service Department and we'll provide outstanding service during early morning hours and weekends at no additional cost!
